- Figure 8. SWOT Analysis*

Acknowledgments

This Plan would not have been possible without the cooperative efforts of a number of dedicated citizens, stakeholders, City staff, and elected and appointed officials. The City of Harrington selected consultant KCI Technologies, Inc. (KCI) for this project, as the Project Manager has been the City Planning Consultant for over ten years and is intimately familiar with the community.

The Downtown Development District planning process officially began in March 2015 with the submission of a Neighborhood Building Blocks Fund Grant application. Since then, community members have contributed numerous hours toward the preparation of this Plan. City Planning Consultants and City staff facilitated four Task Force meetings, two open houses, one public presentation, and one public hearing before the City Council, in addition to facilitating an online downtown survey as well as several community outreach notifications.

Community input and public participation is the foundation of the Downtown Development District Plan. Without the ongoing participation and support, this Plan would not have been possible.

City Council

Anthony R. Moyer, Mayor
Duane E. Bivans, Vice Mayor
Charles W. Porter, District 1
Amy Minner, District 2
Fonda Coleman, District 3
Eric Marquis, District 4
Kenneth W. Stubbs, District 5
