## **DEMOLITION PERMIT APPLICATION**

Revised 05.24.13

- It is the responsibility of the general contractor to ensure they and their sub-contractors are licensed to operate in the City of Harrington.
- No permit will be issued if property owner is delinquent of City taxes or utilities or has open code violations.
- A demolition permit cannot be issued until all utilities have been capped and/or removed by the appropriate City personnel, including meters. **DO NOT BEGIN ANY demolition until you have paid for and picked up your permit.**
- Once the City has reviewed your application, you will be contacted with the permit price and when you may pick it up. This usually takes approximately 7 business days.

### **RESIDENTIAL AND COMMERCIAL DEMOLITION, PLEASE NOTE:**

The State and Federal governments require that, prior to any residential or commercial structure being demolished or renovated, an asbestos survey must be performed. And, at least 10 working days prior to the start of demolition, a notice must be sent to (DNREC). A list of Delaware licensed asbestos inspection firms can be obtained from the State of Delaware Office of Management and Budget (OMB) at 302-739-5644. Any further questions regarding these requirements should be directed to the State of Delaware Department of Natural Resources and Environmental Control (DNREC), Air Quality Management at 302-323-4542 in New Castle or 302-739-9402 in Dover.

**\*\*\* Please contact Kent County to determine the necessity of a county permit.\*\*\***
