**Applicant's Certification:** By completing this application, the applicant hereby certifies as follows under penalty of perjury: (1) I am the owner of record of the named property, or that the proposed work is authorized by the owner of record and that I have been authorized to by the owner to make this application as their agent; (2) That the information on this application (and construction documents) provides full disclosure and is accurate to the fullest extent possible; and (3) That the information contained in the application and construction documents is in compliance with all applicable covenants or deed restrictions.

Applicant's Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Applicant Printed Name: \_\_\_\_\_

**SPECIAL NOTE\*\*\* All contractors and subcontractors must have a current Contractor's License with the City of Harrington in order for the permit to be issued. Please attach a full list of all contractors and subcontractors (with their accompanying contact information) who will be involved in the building process along with this application.**

### **Building Permit Submission Requirements**

Each permit is issued a list of required inspections. The permit applicant is responsible for obtaining approval for each required inspection prior to proceeding beyond the point indicated. Any questions should be brought to the attention of the Building Code Official – David Naples at 302-743-4715 or by email at [codesolutionsint@gmail.com](mailto:codesolutionsint@gmail.com).

Permit application submittal documents shall be in accordance with the most recently adopted edition of the International Building Code. Submittal documents consisting of construction documents, statement of special inspections, geotechnical report and other data shall be submitted to the City of Harrington via electronic medium in .pdf format for review and approval. The construction documents shall be prepared by a registered design professional in accordance with DE Title 24 as applicable for construction other than 1 and 2 family dwellings and their associated accessory structures. Where special conditions exist, the building official is authorized to require additional construction documents to be prepared by a registered design professional.

Construction documents shall be of sufficient clarity to indicate the location, nature and extent of the work proposed and show in detail that it will conform to the provisions of the adopted building code and relevant laws, ordinances, rules and regulations, as determined by the building official.
